FastenMaster ZipClip™

Hidden Deck Fastener

Three-Step Installation Process

- Gap** Position the FastenMaster Gapper between boards to establish consistent spacing before fastening.
- Set** Insert and align multiple ZipClips along the joist or blocking once the boards are placed and gapped.
- Drive** Use the ZipStick with a variable-speed drill to drive the screws and lock the ZipClips into place.

FastenMaster ZipClip™

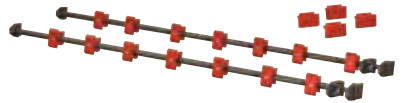

- *Fastest Installation:* Clips slide easily into position after the boards are laid out.
- *Versatile Clip Design:* One universal clip handles a variety of substructure conditions, including flat blocking, double joists, and hard-to-reach areas eliminating multiple types of clips.
- *Effortless Adjustment:* Designed to make installs easier, the clip backs for quick board adjustment or replacement; perfect for correcting misalignment without damaging the deck.

The Next Generation of Hidden Deck Fastening

FastenMaster Gapper™

- *Precision Accuracy:* Spacing features ensure boards lock in consistent, with uniform gaps.
- *Fail-Safe Tension:* Keeps clips firmly seated and prevents over-pulling while protecting boards.
- *Lightweight & Durable:* High-strength, corrosion-resistant materials are light and durable.

FastenMaster ZipStick™

- *Stand & Drive:* Ergonomically designed to engage & drive clips from a standing position.
- *Lightweight & Durable:* Built from high-strength materials that deliver dependable performance.
- *Universal Compatibility:* A universal connection point fits virtually any variable-speed drill.

FastenMaster ZipClip		
SKU	Coverage	Packaging Quantity
FMZIPCLIP-100	100 SF	180 ZipClips, T15 Driver Bit

Blade rotates 90° when installed

Cortex® for Fiberon Decking

Kits & Individual Hidden Fastening Components

The Collated Cortex Hidden Fastening System is the best way to hide fasteners on Fiberon stairs, perimeter boards and more.

- **Perfect Match, Clean Finish**

Cortex plugs are made from the same material as the deck boards, creating a 100% perfect match every time

- **Pre-Aligned Collated Strips**

Cortex plugs come on a collated strip with pre-aligned grains, so there's no need to fumble around with loose plugs

- **TORX® Htap® Drive System**

Provides superior bit engagement for a stable, wobble-free installation experience

- **ProjectLife™ Warranty**

Fasteners and plugs are warranted by FastenMaster for the life of the project

Collated Cortex Decking Kits (Includes Plugs)

Length	Contents	Coverage	SKU
2-1/2"	350 screws, 360 or 400 plugs, 3 setting tools	100 SF	FMCTXCL-FB*****

Collated Cortex Plugs Sold Separately (PSS)

Contents	Coverage	SKU
360 or 400 collated plugs, 1 setting tool	100 SF	FMCTXQD-FB*****

316 Marine Grade Stainless Steel Screws

Length	Contents	Coverage	SKU
2-1/2"	350 screws, 1 setting tool	100 SF	FMCTX212SS316-350

Metal Framing Drillers

Length	Contents	Coverage	SKU
1-5/8"	350 screws, 1 setting tool	100 SF	FMCTXD-100NP

**Selecting SKU/Board Color

When ordering, combine the SKU with the Fiberon color on the color match guide.

Example: Fiberon Sanctuary 100 SQFT Kit for Chai = FMCTXCL-FB100SNCH

**Selecting SKU/Board Color

When ordering, combine SKU column with Fiberon color match guide. Example: Gray 2-1/2" 350pc = FMTED-212-350GY

TrapEase® FASCIA

Color Matched for Fiberon® Fascia

The TrapEase Fascia System is the strongest, easiest way to install composite fascia.

Features:

- High Performance with UV, fade, & scratch resistant head coating that matches leading board colors
- ProjectLife™ Guarantee warranted for the life of the project
- Engineered for Fascia Expansion/Contraction

TrapEase Fascia				
Length	Quantity	Description	Coverage	SKU
1-3/4"	75pc box	200 screws, 1 counterbore tool, 1 driver bit	100 LF	FMTEF-1LF**

***Selecting SKU/Board Color

When ordering, combine SKU column with Fiberon color match guide. Example: Tan 100 LF = FMTEF-1LFTN

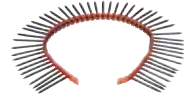

Cortex Collated AutoFeed Screws

Now compatible with the PAMFast AutoFeed System

Install Screws Standing Up! Cortex Screws can now be installed through the FastenMaster PAMFast AutoFeed Tool dramatically reducing installation time!

Features:

- Stand-Up Application – 3X Faster Installation
- No Predrilling Required*
- Compatible with Fiberon Decking

Cortex Collated AutoFeed Screws

Length	Mfg SKU	Coverage	Contents
2-1/2"	FMCTX212-AF1050	300 SF	(1,050) Screws, (1) Driver Bit, (2) Nose Guards and (1) Depth Guide

PAMFast AutoFeed System

Mfg SKU	Drill Type
SD-20-DWC13KUE	DeWALT Cordless

*Please refer to Cortex Collated AutoFeed installation instructions (found on box) before use.

The Whole Home Fastening Solution!

PAMFast is a 2-in-1 interchangeable length tool. The removable extension pole enables easy long-to-short conversion for a variety of fastening needs. Fasten subfloor and decking while standing comfortably, or convert to a short tool to fasten drywall, roof tiles, and more.

Tool converts from long to short
