

FastenMaster Ground Contact Coating™

**NEW
PRODUCT**

Rot-Resistant Waterproof Barrier

FastenMaster Ground Contact Coating extends the life of your pressure treated lumber by creating a protective barrier for deck posts, landscaping timbers, fence posts, stair stringers, lattice and more.

Specifically formulated for ground contact applications

Resists insects and fungus that cause ground rot

Quick dry formula goes on white and dries clear

1/2 gallon bucket covers 40 square feet of material or (14) 6x6 posts

Ideal for the following applications and many more:

Deck Posts

Stair Stringers

Fences

Lattice

FastenMaster®

Ground Contact Coating

Rot-Resistant Waterproof Barrier

Extends the life of your wood framed projects:

Creates a long lasting waterproof membrane specifically formulated to resist fungi and insects.

Beautiful Finished Appearance:

Dries clear to maintain the natural beauty of wood.

Wide Range of Applications

Including: deck and fence posts, landscape timbers, stair stringers, lattice, and more!

Easy To Use

FastenMaster's Ground Contact Coating can be applied using a standard bristle paint brush or a heavy duty, 3/8" nap roller.

Simple Clean Up

Clean skin or building materials with soap & warm water. Mineral oil or Baby Oil can be used.
