Exterior Wood Screw

PRODUCT HIGHLIGHTS

GuardDog with TORX® ttap® Drive System

The TORX® ttap® drive system offers unmatched stick-fit and wobble-free installation, eliminating fastener stripping during installation or removal.
Note: A standard T25 TORX® driver bit can be used if needed.

Durable Coating: Fully Tested, Fully Guaranteed.

The GuardDog coating has been tested and approved for use in treatments such as ACQ and CA-B, and acidic woods like Cedar and Redwood. This fastener is guaranteed to protect against rust for the life of the project.

Note: Corrosion guarantee does not apply when the fastener is used in salt-water applications.

Simple Installation: Professional Results

Install two fasteners per deck-to-joist connection. Predrilling recommended only when fastening within 1½" of end of board or using hardwoods.

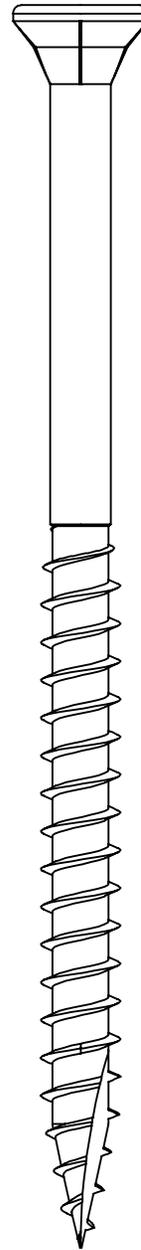

Additional Information:

For installation instructions or warranty information on the GuardDog fastener, call 800-518-3569 or visit FastenMaster.com. Contact FastenMaster before beginning if you are unsure whether GuardDog is right for your project.
