

HeadLOK

Structural Wood Screw

**NOW with a
TORX® ttap®
Drive System**

HeadLOK now has a TORX® ttap® Drive System!

HeadLOK is a flat-headed heavy duty wood screw that does it all with a *NEW and IMPROVED* drive system. HeadLOK offers higher design shear than 3/8" lag screws with no predrilling needed.

TORX® ttap® Drive System
delivers a superior bit engagement
for a stable wobble free installation

ProjectLife™ Coating
superior corrosion protection
guaranteed for the life of the project

Code-Compliant
Tested and supported by engineering
data that conforms to ICC-ES ESR-1078
